

Plattform-Update:

Upcoming Live Classes in April

**TwentyOne
Skills**

Dear reader,

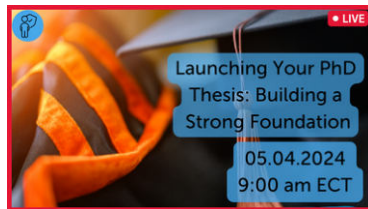

for April we have a wide mix from science communication via AI to career tips such as LinkedIn profiles. There's also a couple of new e-learnings coming out (see page 2!)...

Best regards, Robert
(Head of Learning, TwentyOne Skills)

Live classes: Schedule for April

05.04

Launching Your PhD Thesis: Building a Strong Foundation

We'll guide you through the initial steps of crafting your PhD thesis. Tips on how to go from a blank document to starting the writing process, thesis organization, and goal setting.

10.04

Answering Questions after a Scientific Talk

For most scientists, the hardest part of a conference talk is not the talk itself but the Q&A afterwards. We will give you an input on this challenging part.

10.04

Gain Visibility for Your Research– How to Rock Your Science

Learn how to raise interest for your work and how to entertain the audience in your science slam.

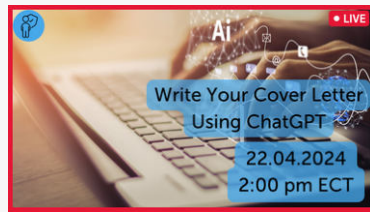

16.04

Expand Your LinkedIn Network

Join this session to learn about the reasons why having a big LinkedIn network can be beneficial in your job-hunting adventures, and what you can do to expand it.

22.04

Write Your Cover Letter Using ChatGPT

In this session we will be discussing how you can harness the power of ChatGPT to simplify a normally tedious process: writing your cover letter for job applications.

24.04

Leadership from below

We will give you insights on how to lead without disciplinary authority. We will focus on how to lead challenging bosses from below without manipulation / in an ethical way.

30.04

Scientific Presentations and Body Language

Enhance your scientific presentations with the power of body language and stage movement! Learn techniques to engage your audience.

Upcoming E-Learnings:

to be released in April: "How to Write a Cover Letter Using ChatGPT"
and
"How to Expand Your LinkedIn Network"...

NEW
